

# Expand Your School's Support Capacity with Teletherapy

## How eLuma's Online Solutions Help You Deliver More, Without Adding More to Your Team's Plate

As schools face mounting pressures to provide quality support for students, many are turning to teletherapy as a **flexible, scalable solution**.

Whether you're dealing with staff shortages, growing student needs, or logistical challenges, eLuma's teletherapy helps you **enhance your existing services** while freeing up your in-house resources to focus on what matters most.

	In-Person Therapy	eLuma Teletherapy
Flexibility	Limited by location and scheduling constraints	Flexible scheduling & recruiting from anywhere in the US
Access	Limited to local staff and resources	Connects schools with licensed professionals nationwide, including underserved areas
Capacity	Constrained by space and staff availability	Scalable to meet growing needs without added overhead
Costs	Includes travel, facility use, and employee benefits	Cost-effective: no travel, no facilities, no employee benefits to cover
Technology Integration	Often minimal or inconsistent	FERPA-compliant platform with real-time progress tracking
Student Engagement	Prone to scheduling disruptions and missed sessions	More consistent access, fewer cancellations, and no-shows

# Why Schools Choose eLuma

With rising demands and limited resources, schools are rethinking how they deliver therapy services. eLuma's teletherapy solution is designed to complement your team, not replace it, helping you serve more students while easing the load on your staff.

## IN-PERSON THERAPY: A TRADITIONAL MODEL WITH LIMITS

- ✗ **Limited Availability:** Requires therapist and student to be in the same place at the same time, often resulting in delays or missed services.
- ✗ **Geographic Constraints:** Challenging to find qualified providers, especially in rural or underserved areas.
- ✗ **High Costs:** Ongoing expenses for travel and employee benefits like PTO, insurance, and retirement.
- ✗ **Bottom Line:** In-person services are valuable but often limited by staffing shortages and logistics.

## ELUMA TELETHERAPY: A FLEXIBLE, SCALABLE SOLUTION

- ✓ **Effortless Partnership:** eLuma works in tandem with your in-house team, removing the need to recruit, hire, and manage additional staff.
- ✓ **Increased Access:** Reach students in all areas, including rural, remote, and underserved populations.
- ✓ **Consistent Engagement:** Fewer cancellations and missed sessions due to flexible scheduling.
- ✓ **Cost-Efficient:** Cuts expenses related to travel and staff benefits.
- ✓ **Data-Driven Support:** Our FERPA-compliant platform tracks services and student progress.
- ✓ **Result:** You get a powerful extension of your team, built to meet modern challenges without burnout.

## Let's Build Better Support Together

Whether you're facing therapist shortages, higher student needs, or simply want to do more without overextending your resources, eLuma is here to help.
